### THE RSA ADVANTAGE

**Relationship-driven. Experienced. The RSA Advantage represents how, together, we win.**

- Our specialized energy underwriters partner with brokers and their clients to create a customized approach for every risk and level of complexity, including best risk management, efficient local policy issuance, jurisdictional inspection services and claims processes
- We offer tailored policies and compliant multinational solutions, available here in Canada and in over 150 countries and territories
- In partnership with brokers and clients, RSA creates customized, responsive claims programs that address specific needs, emphasizing long-term relationship management
- The seasoned experts on our claims team provide 24/7 claims reporting, promptness and timely settlements
- Brokers and their clients can have confidence in our strong capital position and credit rating

## Elite sectors deserve elite treatment

Canada has it all when it comes to the energy sector—from natural resources and drilling technologies to the human capital needed to get virtually any job done. And when it comes to relying on an insurer, this sector deserves the best.

RSA takes this challenge very seriously. Our senior professionals are passionate about the business; our risk control consultants are singularly focused on finding solutions, positioning RSA as a true partner. Experience has taught us how to keep business moving through project delays and supply-chain issues, as well as machinery failures, downtime and rising equipment costs.

RSA has a straightforward approach to formulating a plan: we listen to your clients' tolerance for risk and tailor solutions to their specific needs. And with an in-house capacity of up to \$400 million, we can handle projects of almost any size.
