RSA recognizes the speed of business

In order for any business to thrive, it must ensure delivery of products and services to customers on time. An interruption to this flow is often caused by the breakdown of vital equipment or machinery that keeps production moving.

At RSA, we understand the damage caused by work stoppage—both financial and reputational. Equipment Breakdown Insurance (EBI) provides protection against the physical and financial loss resulting from equipment breakdown.

We are a leader in engineering services and have demonstrated technical expertise in EBI. Our EBI products cover all classes of business, and we offer customized products to meet specialized needs. Our book of business ranges from complex global risks to small and medium-sized enterprises. Regardless of the account size, we know that time is money, and we make it a priority to resolve claims quickly and efficiently.

RSA provides monoline, packaged and program EBI policies to suit your needs.

RSA Canada maintains an A rating (stable outlook) from Standard & Poor's, the world's leading provider of credit ratings, and is supported by the financial strength and stability of RSA Insurance Group plc.

RSA understands the damage caused by work stoppage—both financial and reputational.
